

JAPANESE TRAP THREE RUSSIAN SHIPS KOREA GRANTS RIGHTS TO MIKADO'S MEN

SEOUL, February 14—The Korean Government has granted Japan the right to traverse the country. It is reported that Japanese warships have trapped three Russian ships at Yongampho. No details regarding the result of the naval exploit have been received.

SIX HUNDRED RUSSIAN SOLDIERS ARE FROZEN TO DEATH.

Alexieff Declares Japanese Are a Barbarous Set—Mikado's Men Bitterly Complain of Russian Cruelty.

TOKIO, February 16.—The government is receiving additional circumstantial reports of the alleged cruelty of Russians towards Japanese refugees from Manchuria. The Japanese Consul-General at Tien Tsin has just telegraphed the authorities here giving a recital of the story told by thirteen women who have just arrived at Shan Hai Kwan. The women were residing at Harbin and started south on February 9th, with 300 companions.

One-half of these with the women reached Mukden on the 10th, and were ordered to leave the train by Russian soldiers, who cruelly abused them and detained the party, which they finally divided, the men being ordered to proceed to Port Arthur.

The women were sent to New Chwang where United States Consul Miller provided food and transportation for them to Shan Hai Kwan.

The women say they saw several Japanese refugees cruelly beaten and wounded.

They say that the Russian soldiers robbed them of money and jewelry. Some of the Japanese escaped punishment by bribing the soldiers.

The Japanese government and people are deeply stirred by these reports of abuse and suffering sustained by the refugees. They point to their own correct attitude toward the Russians in Japan, and denounce the Russians as barbarians.

The sinking of the Nakhonoura Maru and the treatment of refugees is creating a feeling which betokens a bitter and relentless war. It is improbable that the Japanese will retaliate in kindness, whatever excesses the Russians commit.

The Japanese are unable to understand why the men and women

refugees from Harbin were divided. It is suggested that Russia intends to hold the men at Port Arthur, in the hope of avoiding a bombardment. This, however, appears extremely improbable.

MISSIONARIES ARE IN DANGER.

PHILADELPHIA, February 16.—Relatives and friends of missionaries now stationed in Korea, Manchuria and Japan are alarmed for their safety. Miss Minerva L. Guthapel of Germantown and Rev. Wilbur C. Swearer of Beaver, Pa., are in Seoul, and Rev. W. Arthur Noble and his wife of Western Pennsylvania are in Ping Yang.

Rev. S. W. Thomas, editor of the Philadelphia Methodist, and a member of the Methodist Missionary Board, said today that all missionaries stationed near the seat of war have been notified to use their own judgment in remaining or fleeing from their stations.

JAPS PREPARE TO MAKE LANDING.

PARIS, February 16.—Advices through the French government's channels confirm published reports to the effect that the Japanese are preparing to make a landing west of the Liao Tung peninsula, at or near the port of New Chwang. Owing to the sandy shallows near this port, it is expected that the landing will occur at the rocky points eastward of the town.

Owing to the extent of American interests there, and it being the capital of Manchuria, considerable importance is being attached to the movement.

JUDGE F. W. HENSHAW WEDS MRS. HELEN TAY.

SAN FRANCISCO, February 16.—The marriage of Judge Frederick W. Henshaw of the Supreme Court and Mrs. Helen W. Tay took place at noon today at the home of the bride's parents, 2500 Broadway.

The happy occasion was quietly celebrated by the near relatives of both the bride and groom.

The ceremony was performed by Associate Justice McFarland of the Supreme Court.

It was followed by a dainty wedding breakfast, which was partaken of by a coterie of friends and relatives.

At the conclusion of the spread the happy couple, with the best wishes of those around them, departed on a bridal tour, which will extend throughout the South.

After the honeymoon, Judge and Mrs. Henshaw will reside, for a time, in the

home of the bride's parents, where Mrs. Henshaw has for some years made her home.

Mrs. Henshaw is a beautiful woman, of the perfect blonde type, and has always won much admiration. As Miss Helen Walker she was a belle, and her marriage about ten years ago to Charles Fox Tay was quite a social event. Three years ago Mrs. Tay was left a widow with a little daughter.

Judge Henshaw is Associate Justice of the Supreme Court of California, and one of the most brilliant attorneys in the State. He is a popular member of the Bohemian Club, where he has the reputation of a bon vivant and a clever after-dinner speaker. He is well known in Oakland, where he has made his home for many years, and is a brother of W. C. Henshaw of the Union Savings Bank and Tyler Henshaw.

A new phase of the accord of the American note on the subject of the neutrality of China has arisen, requiring a renewal of the negotiations. The approval of the various powers has not been identical, Great Britain attaching a condition that the terms of the accord should be applicable to the foreign concessions and establishments, like Kiaochow and Wei Hai Wei, the same as to other parts of China.

France was inclined to take the same view, but Russia thus far has not approved the condition covering the foreign concessions. So final action is likely to await Russia's determination.

It is pointed out that the reservation might become of serious importance if foreign concessions like Wei Hai Wei and Kiaochow were used as a base of operations by either of the belligerents.

BERLIN, February 16.—The St. (Continued on Page 3.)

MASSING OF TROOPS ON THE YALU RIVER.

First Trophy of the War Goes to the Emperor of Japan.

TOKIO, Tuesday, February 16.—The flag of the Russian cruiser Varyag, recently sunk off the harbor of Chemulpo, which will be presented to the Emperor as the first trophy of the war, reached Seoul yesterday on the cruiser Chigoda, together with an anchor, a gun and other souvenirs of the destroyed warship. The Captain of the cruiser Chigoda had been summoned to Tokyo to personally recount to the Emperor the actions and experiences of himself and crew. He will bring the captured flag with him and personally present it to the Emperor. The German steamer Bismarck has just reached Moit with 1500 Japanese refugees on board, including the commercial agent of Japan at Vladivostok.

The latter reports that ten Russian torpedo boats are frozen up at that port unable to move. The commander of the garrison and the local authorities at Vladivostok called upon the departing agent and complained that the Japanese had opened hostilities without having declared war. When news of the opening of the war reached Vladivostok the squadron there was hastily re-painted and cleared for action, leaving port on the afternoon of February 9. He believed that it returned to Vladivostok after sinking the Nakhonoura Maru. There are no torpedoes or mines sunk at Vladivostok and the place is totally unprepared to resist attack.

Massing of troops on the north bank of the Yalu continues, the Russians evidently believing that the Japanese intend to make their main attack there with the object in view of forcing their way through the Russian lines and destroying the railway, thereby cutting off all communication with Port Arthur and Vladivostok.

The Japanese are again agitating the construction of the Seoul and Wiju railway and great quantities of material

used on the Fusan-Seoul railway are available. In event of a prolonged war, a railway between these points would be of immense advantage.

RUSSIANS THREATEN MARINES.

American and British Will Be Give Reparation.

Riotous Times Are Seen In the Streets of Yinkow.

YINKOW, Monday, February 16.—Threatening demonstrations have been made against the British gunboat Espee and the United States gunboat Helena by Russian soldiers, whose assaults upon and depredations against other foreigners continue.

The civil administrator is making every effort to arrest the offenders, and has assured Captains Bar on and Sawyer and Consul Miller that full reparation will be made.

The Eleventh Siberian regiment paraded at New Chwang today in full strength.

The Russian authorities deny the report of the loss of the Russian vessels near Wei Hai Wei.

It is stated here that Japan will wait indefinitely to land troops in Manchuria as she considers that the control of the seas obtained by Japan nullifies to a great extent Russian interests in the East.

ALEXIEFF SAYS ACTION OF JAPS IS BARBAROUS.

Declares the Russian Soldiers Will Avenge Themselves.

PORT ARTHUR, February 16.—The firing on the German cruiser Hansa by Japanese warships occurred while she was proceeding to Port Arthur to take away the German residents and not when the latter were on board of her. The Hansa was not damaged.

On her arrival at Port Arthur she took on board a number of wives of Russian sailors and left the port without further incident.

The work of repairing the damaged Russian battleships is progressing rapidly. The Chinese workmen were panicked by the bombardment but they are now working well, regardless of the approach of the Chinese New Year. Investigation shows that the city and

IMPRESSING THE ORIENTAL-RUSSIAN SOLDIERS AT MUKDEN. Mukden, the capital of Manchuria, and an important station on the railway to Port Arthur, has recently been declared open for trade by the Chinese authorities. There is a strong force of Russian soldiers to protect Russian interests.

JAPS ARRESTED HANNA'S DEATH ANNOUNCED FOR MURDER. IN THE SENATE.

HONOLULU, Feb. 16, via San Francisco, Feb. 16.—Six Japanese have been arrested on the Island of Kaula as a result of the investigation of the murder of G. H. Glennan, formerly of Redwood City, California, who was killed by the explosion of a stick of dynamite under his bed in camp. Two are charged with murder and four with conspiracy. The four have turned State's evidence and say that the whole six held a meeting and decided to kill Glennan after he had driven them from camp and thrashed them. They were gamblers.

Committee Named to Take Charge of the Funeral in Washington and Cleveland.

WASHINGTON, February 16.—Formal announcement of the death of Senator Hanna was made in the Senate today immediately after the opening prayer. The duty of making the official statement of the officer's death fell to Mr. Foraker, of Ohio, Mr. Hanna's colleague.

Most of the late Senator's colleagues were in their seats before the Senate was called to order, and their faces bore traces of the sorrow which all felt. The galleries, too, were crowded. The opening prayer was delivered by the Senate chaplain, Dr. Edward Everett Hale.

FORAKER SPEAKS.

On motion of Mr. Aldrich, the formality of reading the journal of the preceding day was omitted, and Mr. Foraker was recognized to make his announcement. He said:

"Mr. President: I have a painful duty to perform. It is that of making formal announcement of the death of my colleague, Marcus A. Hanna."

"He is mourned by all his countrymen—by his political associates, not alone because he was their greatest organizing leader, who repeatedly led them to victory, but also and more especially because he had gained their affections and reigned in their hearts as a favorite—by his political opponents, because they are chivalrous and generous enough to experience sorrow when a brave man falls, though he may be of the opposition and because they recognize in him a bold and fearless foe, a man who commanded their respect and excited their admiration."

"It is unnecessary to speak in this

presence of the great loss his death has occasioned to his party, his State and the nation. All know it better than any language can express it."

"Mr. President, this is not the time for extended eulogy. Later I shall ask the Senate to set apart a day when all his colleagues can join with me in paying fitting tribute to his life, character and public services."

"For the present I content myself with offering the following resolution, for which I ask present consideration."

THE RESOLUTIONS.

The resolutions offered by Mr. Foraker were as follows:

"Resolved, That the Senate has heard with profound sorrow of the death of the Honorable Marcus A. Hanna, late a Senator from the State of Ohio;

"Resolved, That a committee of twenty-five Senators, of whom the President pro tem shall be one, be appointed by the presiding officer to take order for superintending the funeral of Mr. Hanna, which shall take place in the Senate chamber at 12 o'clock on Wednesday, February 17, and that the Senate will attend the same;

"Resolved, That as a further mark of respect his remains be removed from Washington to Cleveland, Ohio, for burial, in charge of the Sergeant-at-Arms, attended by the committee, who shall have full power to carry these resolutions into effect, and that the necessary expenses in connection therewith be paid out of the contingent fund of the Senate;

"Resolved, That the Secretary communicate these proceedings to the House of Representatives and invite the House of Representatives to attend the funeral in the Senate chamber and to appoint a

Nature's Greatest Cure For Men and Women

Swamp-Root is the Most Perfect Healer and Natural Aid to the Kidneys, Liver and Bladder Ever Discovered.

Swamp-Root Saved My Life.

I received promptly the same bottle of your great kidney remedy, Swamp-Root. I had an awful pain in my back, over

the kidneys, and had to urinate from four to seven times a night often with smarting and burning. Prick dust would settle in the urine. I lost twenty pounds in two weeks, and thought I would soon die. I took the first dose of your Swamp-Root in the evening at bed time, and was very much surprised; I had to urinate but once that night, and the next morning I did not get up until morning. I have used three bottles of Swamp-Root, and today am as well as ever.

I am a farmer and am working every day, and weigh 190 pounds, the same that I weighed before I was taken sick.

Gratefully yours,
T. S. APKER, March 10th, Pa.
Sec. F. A. & L. J. 504 April 20th, 1903.

There comes a time to both men and women when sickness and poor health bring anxiety and trouble hard to bear; disappointment seems to follow every effort of physicians in our behalf, and remedies we try have little or no effect. In many such cases, serious mistakes are made in doctoring, and not knowing what the disease is, or what makes us sick. Kind nature warns us by certain symptoms which are unmistakable evidence of danger, such as too frequent desire to urinate, scanty supply, scalding irritation, pain or dull ache in the back—they tell us in silence that our kidneys need doctoring. If neglected

now, the disease advances until the face looks pale or sallow, puffiness dark circles under the eyes, feet swell, and sometimes the heart acts badly. There is comfort in knowing that Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy, fulfills every wish in quickly relieving such troubles. It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. In taking this wonderful new discovery, Swamp-Root, you afford natural help to Nature, for Swamp-Root is the most perfect healer and gentle aid to the kidneys that has ever been discovered.

Swamp-Root a Blessing to Women

My kidneys and bladder gave me great trouble for over two months and I suf-

fered untold misery. I became weak, emaciated and very much run down. I had great difficulty in retaining my urine and was obliged to pass water very often night and day. After I had used a sample bottle of Dr. Kilmer's Swamp-Root, sent me on my request, I experienced relief and I immediately bought of my druggist two large bottles and continued taking it regularly. I am pleased to say that Swamp-Root cured me entirely. I can now stand on my feet all day without any bad symptoms whatever. Swamp-Root has proved a blessing to me.

Gratefully yours,
MRS. E. AUSTIN,

PIERCING WIND.

NEW YORK, February 16.—A piercing wind today added to the discomfort in this city by a drop of 25 degrees in the temperature in ten hours and outdoor work was reduced to the minimum. At 3 o'clock the official record of the mercury was one degree above zero; that being the lowest, although suburban thermometers registered 4 to 10 degrees below. Ice cakes in both

streams hampered the ferry service greatly during the day.

HANNA NEVER FRANCE PROTECTS A CANDIDATE. SQUADRON.

HE BELIEVED THAT ROOSEVELT ACTION MAY CAUSE HER A
SHOULD BE NOMI- GREAT DEAL OF
NATED. TROUBLE.

HELENA, Montana, Feb. 16.—In an interview published in the Record today Former Chairman of the Republican National Committee Thomas H. Carter says the following:

"The week before last I happened to occupy a room next to Senator Hanna in the Arlington Hotel in Washington, and spent a portion of every afternoon during the week with him."

"Senator Hanna was not a candidate for the Presidency in opposition to President Roosevelt at any time. Last summer I spent a day with him at his house in Cleveland, and in the course of a conversation he said to me emphatically that there was no warrant whatever for the use of his name as a candidate; that he believed the interests of the party required the nomination of Mr. Roosevelt, and that there should be no division in the ranks. I know that ten days ago his mind was unchanged on that question."

PLANS FOR HANNA'S FUNERAL.

WASHINGTON, February 16.—President Roosevelt has decided not to go to Cleveland to attend the funeral of the late Senator Hanna. He will, however, attend the services at the Capitol tomorrow. The President's decision was reached today after a conference with H. M. Hanna.

The special train bearing the remains of the dead Senator will leave here tomorrow evening about 10 o'clock and will arrive in Cleveland between 10 and 11 o'clock Thursday morning.

The train will be met at the borders of the State by Governor Herrick, who will accompany it to Cleveland.

The body will lie in state Thursday at the home of the Cleveland Grays. The funeral will be held on Friday in St. Paul's Episcopal Church. The service will be conducted by Bishop Leonard of the diocese of Northern Ohio, and his assistant.

AT THE MACDONOUGH.

The melodrama, "Down by the Sea," will be repeated again tonight. Tomorrow and Thursday "Circumstantial Evidence" is scheduled. This is a play drawing in a strong measure, of high tone and is worth seeing.

GEORGIA MINSTRELS.

The Georgia Minstrels are booked for three nights commencing today. The business will be given. There are many innovations introduced this season, and the minstrels are all said to be past masters in the art.

RETURN ENGAGEMENT.

Louis James and Frederick Wardle will play a return engagement Monday, February 22. The "Jumbo" will be "Catharine" and "Julia Caesar." The first will be presented at the matinee. At night Mr. James will be seen as Brutus and Mr. Wardle as Anthony in "Caesar."

WEBER AND FIELDS.

"When the Day Comes," that imitable Weber and Fields "jumble," is slated for Thursday night, February 23, only. It is a "jumble" of mirth, melody, light and color, they themselves say. The play of "Catharine" is also on the program. The Weber and Fields company is an all star aggregation and should prove a great drawing card. Seats are now on sale.

GAVE HIM A BANQUET.

HAYWARDS, February 16.—Eden Parlor of Native Sons of Haywards tendered a farewell banquet to W. E. Bellina last night at the Occidental Hotel here. Mr. Bellina is one of the local members of the Eden Parlor who is to sail for Honolulu Wednesday, where he will make his future home. He is interested in one of the largest ivory studies in Honolulu and will take a number of well bred horses from here with him. About thirty members were present at the banquet and wished him a safe and pleasant journey.

PROTESTS FOR JAPS.

OTTAWA, Ont., February 16.—Mr. Moso, the Japanese Consul at Montreal, has arrived here to protest to Premier Laurier against the legislation of the British Columbia Legislature enacted about a week ago to exclude Japanese from occasions passed similar legislation, but it has always been disallowed by the Dominion.

UNITED SERVICES.

A unique feature of the united services of the Episcopal Churches lies in the fact that with the exception of Dr. Shaw all the other clergymen of the Episcopal Church are now men. The first of these services will be held at St. Paul's tomorrow night at 8 o'clock. The Rev. E. F. Gee will conduct the services. A special program will be rendered by the choir of forty voices.

CHURCH OF THE ADVENT.

The Church of the Advent of East Oakland, of which Rev. William Carson Shaw is the rector, will hold services on Ash Wednesday, February 17, which will consist of the Litany Penitential office and Holy Communion at 10:30 o'clock a. m. and evening prayer at 4:30 o'clock. The offertory at the morning service will be for the widows' and orphans' fund.

FORBES ACCEPTS.

WASHINGTON, February 16.—It was announced after the Cabinet meeting that W. C. Cameron Forbes of Boston had accepted the office of Philippine Commissioner vacated by the resignation of Governor Taft, and the promotion to Governorship of General Luke E. Wright.

SECURE A RAILWAY.

MOBILE, Ala., February 16.—Robert C. Manser, manager of the United Fruit Company at Belize, British Honduras, who is in Mobile, states that an American company, including Sir William Van Horne of the Canadian Pacific Railway, Miner C. Keith and other capitalists and railroad men, also the United Fruit Company, have acquired the Guatemalan railway, running from Port Barrios, 125 miles inland.

PARIS, Feb. 15.—A dispatch to the Figaro from St. Petersburg, dated 3:33 a. m. today, says:

"It has been decided to hold the Russian squadron from the Mediterranean now in the Red Sea and bound for the Far East at Jibuti, French Somaliland, until further orders."

Admiral Rojdosvinski, chief of the Maris Staff, is going to assume the naval command at Port Arthur. The stopping of the Russian squadron at Jibuti may lead to international complications, Jibuti being a neutral French port. It is understood that France is not likely to ask the squadron to leave.

HE USED A PISTOL.

The trial of John Carlson of Berkeley for an alleged assault to murder Frank Fagin, a Berkeley electrical supply merchant was begun this morning before Judge S. P. Hall and a jury. Carlson flourished a pistol in Fagin's face and threatened to kill him. He now alleges that the pistol was not loaded and has some testimony to corroborate his statement.

The quarrel between the two men started when Fagin began doing certain work which as a proprietor was against electrical union workers' rules. Carlson was an employee of Fagin and was discharged for making a complaint. A quarrel ensued and the pistol was brought into play with the result that Carlson was arrested on complaint of Fagin. Charges of disturbing the peace and carrying concealed weapons have also been placed against Carlson.

Deputy District Attorney Everett Brown is prosecuting the case for the people while City Attorney McElroy of this city and Attorney Staats of Berkeley are for the defense.

FELL FROM A LOAT.

NEW ORLEANS, February 16.—New Orleans continued today its celebration of the Carnival of 1904. Slight improvement in the condition of Hewitt Chapman, one of the Proteus maskers who fell from the Knatchbull float in last night's procession, was shown today. Mr. Chapman is a native of Bowling Green, Ky., and the loss of his arm is a serious matter to him. He is now in the State sugar planters and clubmen in the State.

PORTER DISMISSED.

Frank Givens, a colored porter, who was alleged to have "rolled" Daniel Jones, another colored porter, while the latter was drunk, was dismissed this morning in Police Judge Sawyer's court on motion of the Prosecuting Attorney. Jones stated that he did not wish to prosecute the defendant.

OPERATIONS A FAD.

Public Gradually Awakes to the Fact.

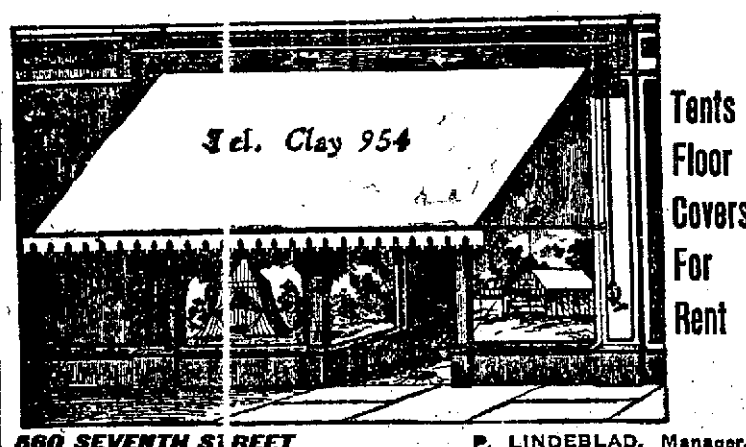

The latest fad in operations has been the appendicitis fad; before that the fad for rectal operations (piles, etc.) held sway. Hundreds of patients were frightened and hurried into hospitals, operated upon and robbed of their last dollar, when the trouble was a simple case of hemorrhoids or piles only, easily cured at home with a simple remedy costing but fifty cents a box.

"I procured one fifty cent box of Pyramid Pile Cure of my druggist, with the intention of buying a larger box later, but was happily surprised when I found that I was cured, and still have six 'pyramids' left out of the first and only box. I have not had the least sign of piles since I used this little box, which has been about two months; previous to using Pyramid Pile Cure I had the worst kind of bleeding and protruding piles for over thirty-one years, and so one knows, except those who have had the piles, the pain and misery I suffered."

"I am a poor man, but have often said I would give a fortune, if I had it, to be cured of the piles, and now I have been cured for fifty cents. I should be very grateful if I did not thank you and give you every privilege to use my name and this letter, when I know there are so many who suffer as I did." J. A. Wismiller, 1100 Bladensburg Road, Washington, D. C.

The Pyramid Drug Co., Inc., 1000 Mich. publish a little book on the causes and cure of piles, which they will be glad to mail free to any applicant, and we advise all sufferers from this painful disease to write to them for it.

GOOD STORY ON LOUIS LONG.

OAKLAND BOXER IS POPULAR IN THE MOUNTAIN DISTRICT.

A dispatch from Anaconda to a Butte paper has this to say about Louis Long, the Reliance Club prize fighter:

"He is a dignified old gentleman with hair almost white, a thoughtful expression and a goodly amount of politeness, which made him conspicuous amongst the passengers who travel between Butte and Anaconda. He took a seat alone, opposite a young woman, pretty and noticeable, whose companion was a little girl.

The train had gone from the Anaconda depot but a mile or so when the gentleman noticed the young woman gave him some attention. Not in his long career of some sixty years had this man conversed more than five minutes with the fairer sex. That was his peculiarity. He had little time for the women, so he told his friends. However, the snapping eyes of this pretty dame could hardly find of demanding attention.

LIKE ST. ANTHONY.

"As the elderly gentleman turned his head he heard someone across the seat call his name pleasantly. He gazed in the direction of the young woman and her child companion and noticed that the former smiled prettily. Determined to shake off his fascination, which seemed of a sudden to take hold of him, the traveler turned his head away from the woman. Within five minutes his name was again spoken and this time with an emphasis of sweetness. Thrice did the name ring in his ear and thrice did he turn his head, only to see the woman smile serenely.

"Pardon me, Miss. Did you speak to me?"

"The young woman looked startled. She apparently failed to understand. The man began an apology and the young woman said he must be mistaken. The ordeal was trying. He stood with head erect in the aisle wondering if this woman was a living devil. How dared she play with him in such fashion. He was about to speak roughly to her for her audacity in speaking his name and make light of him when again the name sounded, just as sweetly and just as prettily as before. The aged man turned quickly, for this time the name came from behind. There with his head thrust three inches above the back of a seat was a boy's beaming countenance.

IT WAS "LITTLE GEORGIE."

"He looked pleased for an instant and then broke into a merry laugh. The youngster proved to be none other than the lad who follows Louis Long, the boxer, about in his travels. 'Little Georgie' he is called.

"In which shoes for a living and makes a good one at it, too. When he finds business dull, Georgie amuses himself by traveling back and forth between Anaconda and Butte and occasionally gets people excited by going through his stunts of ventriloquism.

"This time the elderly gentleman's cave missed Georgie's head by just one inch. Georgie escaped by fleeing. The gallant old knight swears he will not listen to the voice of an angel henceforth.

SLOPPY DAY DOES NOT PREVENT GOOD SPORT AT INGLESIDE

Winners were not hard to pick at Ingleside yesterday, and four favorites rewarded their supporters by passing the judges first.

The drizzling rain, that made the day an exceedingly unpleasant one, there was a large attendance at the course and the betting was heavy.

The bookies lost on the day as a general thing, and a number of them were pressed hard by Whiskers.

The going was exceedingly sloppy and the way in which the ponies ran was surprising.

Polonius took the first race on the program in a half-raising drive with Jean Gravier. Dr. Sherwin made good at third. He was a 10 to 1 chance.

Even though he started badly in the second race, Eduardo succeeded in winning handsily. It first appeared to be an exclusive contest between Eduardo and Marie J., over whom the former was a favorite. Sacharate landed third.

Landsdowne, the favorite of the talent in the third race, won out after being ridden by Whiskers. Handpress got the show.

Perhaps the keenest race of the day was the fourth, in which there was a struggle for first place by Mingo and Mureca. It was the general opinion that Hildebrand, on Mingo, was clearly the favorite.

The fifth was a race of surprises. Postmaster was bid to win, but fell by the wayside, leaving the battle open to Candide, a 16 to 1 shot, and Landsdowne. The long chance horse led the field, but was surprised himself by his opponent, who surprised himself by taking third.

The following is a summary of the result of the day's racing:

Polonius (J. Daly) 9 to 5.

PORTLAND, Or., February 16.—With more than six weeks of the new year passed, not a single charter for new crop wheat loading has been reported for either Portland or Puget Sound and so far as known none at San Francisco. This is the first time in many years that there has been no effort made to secure new crop ships prior to February. The inactivity and hesitancy on the part of the exporters does not necessarily indicate that rates are to be low, for on the contrary there is a gaining belief that new crop ships when they are needed will command higher figures than are now asked for spot ships.

HOLD THEIR FIRST BANQUET.

ALAMEDA COUNTY AUTOMOBILE CLUB ELECTS OFFICERS FOR THE COMING YEAR.

Alameda automobilists had their first annual banquet at the Hotel Metropole last night and elected their officers for the ensuing year. As a mark of appreciation for the good work done by the club, the details of which will appear in the details of the new ordinance.

President, Dr. N. H. Chamberlain; vice president, Dr. G. W. Rodolph; secretary, J. F. Weston; treasurer, R. J. McMullen.

After thanking the members of the club for the confidence they had shown in re-electing him to the office of president, Dr. Chamberlain said:

"It is with considerable pride that I look back over the first year's work of our club, the details of which will appear in the details of the new ordinance. In general, we have modified legislation; we have exercised our influence in favor of good roads, we have pretty well overcome the antagonism and prejudice of the community against automobiles, and have succeeded in placing our club upon a sound and permanent basis.

I wish to take this opportunity to explain the provisions of the new ordinance regulating the use of automobiles in this county.

The ordinance provides that automobiles always take the right-hand side of the center of the road on meeting a vehicle; that the maximum speed shall not exceed twenty miles an hour; that upon signal from an approaching driver the motorist shall slow down to six miles an hour and a second signal shall require his machine to a full stop until the driver shall have passed. On mountain grades the automobile shall take the outside of the grade. As a compensation for this just and liberal law we have agreed to support the law and prevent as far as we can its violation, and we have also agreed to keep all automobiles off the tunnel road.

The club work ahead of the club for the coming year is to discourage the reckless use of the auto and to agitate constantly for better roads.

Secretary Weston in his annual report reviewed the history of the organization of the club and then read the following:

"The fear of the Merchants' Exchange about the safety of a certain road known as the tunnel road, in which it had invested a large sum of money for the benefit of Oakland, was brought to the attention of the club, and it decided to aid the merchants in restoring the road to its former condition, at least temporarily, until it could be improved. The executive committee of the club met with them and while expressly denying the right of any one to keep an auto on a public road, agreed in the wisdom and expediency of exercising a moral restraint in this particular case and has asked motorists to that effect on the tunnel road."

Mayor Olney was among the invited guests at the banquet and delivered a short address.

The members of the Alameda County Automobile Club are: H. R. Jackson, Dr. E. Kelly, W. E. Knowles, Berkeley; W. G. Manuel, C. S. Meyers, G. P. Moore, San Francisco; H. C. Morris, R. H. Morris, Alameda; Dr. L. B. Nicholson, W. J. Roth, H. N. Turrell, W. H. Welby, H. A. Wilkinson, Represso, Turner, Alameda; R. S. Dyer, E. O. Hoedel, E. E. Montgomery, 42; R. J. Sperry, 39; W. N. Gabriel, 38; J. M. Nighingale, 38; R. A. Maddox, 37; H. F. Adler, 37; W. S. Robertson, 36; J. S. Fry, 35; J. S. Dobbins, 35; M. B. Badt, 35.

The action was not taken on account of the reduction made by the Great Western and Northwestern roads, but in conformity with the position they have taken during more than a year, that the differences in the grain rate between the Gulf and South Atlantic ports should not be more than three cents for 100 pounds.

The rate announced by the Burlington and Alton from Missouri river points to South Atlantic ports is one cent less than the regular tariff rate of the eastern lines from St. Louis to the seaboard. This cuts out the rate between the Missouri and Mississippi rivers. It is said by the Burlington officials that under their arrangement with the Eastern roads their system gives an arbitrary of five cents for 100 pounds. This leaves only ten cents to the eastern lines or six cents less than the regular tariff rate.

MICHAEL DAVITT'S MISTAKE.

Michael Davitt inconsistently favors Russia in her war with Japan. He sees in Japan only a friend of England and in England only an enemy of Ireland. He takes no account of the issue between Russia and Japan. He has felt the heavy hand of England personally and has seen from his childhood of its weight on the Irish people; therefore his hatred of British oppression in Ireland leads him to sympathize with Russian oppression in Asia, in the vain hope that the success of Cossack conquest and tyranny may in some way rid the nation at whose hands Ireland has suffered so much.

Mr. Davitt would sacrifice liberty in one place to avenge the loss of liberty in another. His desire to injure the oppressor of his own land to sympathize with the oppressor of other lands. He should look at Russia, not as the enemy of England, but as the destroyer of liberty and the oppressor of mankind. Russian policy is the most cruel and despotic in the world. It is not only destroying the independence of other nations but is seeking to crush out every sentiment and race identity. Every race that Ireland has suffered has been visited on Poland. Liberty and race autonomy are being destroyed in Finland. Wherever the iron hand of Russia reaches free government, free speech, free thought and the free exercise of property and personal rights are strangled. The pitiful condition of the Jews in the czar's dominions is an example of the intolerance, brutality and despotic oppression characteristic of Russian policy. In Eastern Asia Russia is pursuing a scheme of conquest, aggression and injustice.

If the issue were directly between Great Britain and Russia, the balance would be infinitely in favor of the former, in as much greater degree as the liberty that prevails in Ireland is preferable to the absence of any sort of liberty in Poland. But the issue is not between Great Britain and Russia, and Japan is not more the friend of England than she is the friend of the United States. Japan is standing for freedom of commerce and the spread of a liberal civilization. It counts for nothing that she is a Pagan nation while her antagonist is a so-called Christian nation. The rights and wrongs of a quarrel are not determined by the mode of worship of the combatants; besides, Russian policy is opposed to the fundamental precepts of the faith the Moscovites profess. The Bible is no warrant for conquest, rapine and wrong and bloodshed.

It is the duty of every lover of liberty to smite oppression wherever he finds it, under whatever cloak it wears, and to lend a helping hand and a cheering voice to the champions of liberty no matter what gods they may worship or what colored pigment stains their skins. The cause of Irish freedom cannot be advanced by the success of Russian tyranny. Mr. Davitt should be more consistent, and in the contemplation of the wrongs of his own country, he should not condone the wrongs inflicted on other countries.

There seems nothing for the Democrats to do but to nominate Editor Watterson of the Louisville Courier-Journal for President. That doubtful war horse and knight errant of the Star-eyed Goddess of Reform will have none of Cleveland, none of Bryan, none of Hearst and he admits that Gorman is impossible and Tom Johnson among the dead. So the cry of the Grand Old Party should be "Up with Watterson and down with the Four Hundred!"

Senator Burton's anxiety to meet the charges against him on their merits has oozed out at his fingers' ends. He is trying to get the indictments against him dismissed on demurrer. Senator Dietrich's example evidently appeals to him more strongly than a desire for vindication at the hands of a jury.

From the Orient come most bewildering accounts of battles on sea and land. Fleets and armies are represented to be in half a dozen places at once, and all sorts of conflicts, victories and reverses are reported. The special correspondents are getting in their work. They got left entirely on the news of the actual battles, and are now displaying their activity by cabling some very stirring fiction. It is exciting but it is confusing. For instance, separate correspondents send reports that completely contradict each other. Of course neither tells the truth, but it destroys verisimilitude to have too many liars on the same job.

It has been suggested that Japan is trying to teach the Russian bear to dance.

Russia is winning a series of brilliant victories in the newspaper offices of St. Petersburg and Paris, but a few backsets are being suffered at Port Arthur and Chemulpo.

It is hoped that Carnegie's Temple of Peace will be completed in time for the signing of the finish articles between Russia and Japan.

MARK HANNA.

Among the foremost of the strong men Ohio has produced stood Marcus Alonzo Hanna. Though his public career was brief, he is worthy to be counted in the galaxy that includes Thomas Corwin, W. S. Groesbeck, George H. Pendleton, Benjamin Wade, Joshua R. Giddings, Allen G. Thurman, John Sherman, Edwin M. Stanton, Alphonso Taft and James A. Garfield.

No man, not even Stephen A. Douglas, rose to such a pitch of power in politics and to such an influential place in the Senate in so brief a period as Senator Hanna. At the time of his death, no single member of his party awayed such a masterful influence and commanded more unquestioning obedience among his followers. Yet Senator Hanna has figured in national politics only eight years. Past the prime of life and fresh from a long and successful business career, Marcus A. Hanna appeared before the country at the beginning of the year 1896, as the organizer of William McKinley's campaign for the Presidency. He was comparatively unknown outside of his own State and he had two great battles to win—one to secure the nomination for his candidate, and the other to win the election. It was no easy task. The country was in the throes of a financial convulsion that was rending parties and creating new battle-grounds along new alignments in unexpected places.

With a business man's perception, he picked out sound money as the issue that the result would turn on and he boldly nailed the gold standard to the mast and with this device steered the McKinley bark into the vortex of disturbed politics and eventually into the haven of victory. At one bound the new man from Ohio sprang into eminence as a leader and an organizer. He has steadily grown upon the country ever since. His business sagacity, his vast fund of common sense, his skill as an organizer, his judgment of men, his keen perceptive faculty, and his enormous force made him a leader in everything he undertook.

When he entered the Senate he held President McKinley's undivided confidence. He undoubtedly entered that body to assist the friend for whom he had done so much to place in the Presidential chair. For that purpose John Sherman was induced to resign and enter the Cabinet. It was a scheme of practical politics, but the country can only view the results with satisfaction. Sherman was old, soured, infirm of purpose and with a failing mind. He was not a staff to lean on. Hanna was a mighty prop to the Administration. In the Senate he proved that the successful business man could be an able farseeing statesman as well as an astute political organizer. Hanna gained a popular confidence in five years that John Sherman was unable to win in fifty. He developed so rapidly that he drew to himself a large and powerful following for the Presidency without ever being a candidate, and despite his earnest protests.

His death is likely to create a disturbance in Ohio politics. Two powerful Republican factions are contending for supremacy in the Buckeye State, one led by Senator Foraker and the other composed of the adherents of Senator Hanna. Hanna always tried to avoid a clash, but one may be precipitated now. The Legislature and Governor are Hannaite, but in politics no one can tell what will happen when the leader of a faction dies.

THE STORY OF A BIBLE.

The finding of a Bible belonging to the family of General Robert E. Lee in the possession of a Philadelphia business man named George W. Kendrick has excited quite a controversy in the Eastern press; or, rather, the fact that Mr. Kendrick refuses to surrender it to the Lee family has excited controversy. He offers, however, to donate it to the Mount Vernon Association as a Washington relic. The Lee family assert that the Mount Vernon Association has no more right to it than Mr. Kendrick, and that, as it is stolen property, Mr. Kendrick has no right to dispose of it in any way save to return it to its proper owners.

The Bible in question was printed by Charles Bell, a London publisher, in 1702, and originally belonged to the Custis family. It was carried into the Washington family by the marriage of Mrs. Custis to the Father of his country. By intermarriage the book descended to the Lee family. It contains entries of the birth of Panny Park Custis, September 13, 1710 and of Daniel Park Custis, October 15, 1711. It has a record of the marriage of Daniel and Martha Custis and of the births of their children. In other places are records of the birth of George Washington Park Custis and of Gen. Robert E. Lee. Naturally it is highly prized as a family heirloom by the descendants of General Lee who are also the descendants of Mrs. Washington.

The Bible was stolen from Arlington, Virginia, then the residence of the Lees, shortly after it was left by the family in 1861. A soldier of the

United States sold it to an army sutler, who sold it to another soldier whose son sold it to Kendrick. The Lee family have been trying in vain to trace it ever since the war, but no clew was found until last March, when the one hundred and fiftieth anniversary of the admission of Washington into Masonry was celebrated in Philadelphia. For that occasion Kendrick loaned the Bible for exhibition among other Washington relics.

There does not seem any room for controversy here. Being unquestionably stolen property, the Bible should be restored to its proper owners. A refusal to restore it, places Mr. Kendrick in the same category with the original thief. He knew the book was stolen when he bought it, and every person who has had possession of it since it was purloined from the Lee mansion knew it was stolen property. In law and morals the person who knowingly receives stolen property is as bad as the thief. Mr. Kendrick's claim to ownership on the ground of long adverse possession is without merit, especially as he studiously concealed its possession from the public as well as the Lees. He cannot claim to be an innocent purchaser. On its face the book bears evidence, convincing to any intelligent person, of being stolen property and carries equally convincing testimony as to the identity of its rightful owners. It is valuable only because of its associations and the circumstances of its ownership. Possibly Mr. Kendrick may have derived some technical claim to ownership from his possession, but it is a claim that no honest man can urge nor with honor assert. Mr. Kendrick has had the meanness to assert that the Lee family have lost all right to the Bible because General Lee fought against the Union during the Civil War. This is insulting patriotism by making it an excuse for theft. It has no merit in either law or morals, for Lee's actions give Mr. Kendrick no title to his property.

The Stockton Mail advises the Democrats not to oppose the ratification of the Panama treaty. What, then, does it propose the United States shall arbitrate with Colombia? If we treat with Panama as an independent power for a canal concession, what have we to do with Colombia? Our Stockton contemporary seems to have wound itself up and rolled off the bridge.

"Tam o' Shaners" are ideal for skating wear, and the shops are showing some, the fluffy kind, at greatly reduced prices. They come in red, white, black and brown.

To travelers and all people who like to carry their own drinking cups with them, the collapsible ones are a great convenience. These useful cups are in the shops, put in pretty leather cases that are so small that they slip in the pocket and can be purchased for a little over a dollar.

A WOMAN'S BACK

The Aches and Pains Will Disappear if the Advice of this Oakland Citizen is Followed.

A woman's back has many aches and pains.

Most times 'tis the kidney's fault. Backache is really kidney ache. That's why Doan's Kidney Pills cure it.

Many Oakland women know this. Read what one has to say about it.

Mrs. I. Stewart, Model Confectionery and Bakery, 887 San Pablo avenue, says: "If all troubled with pain in the back could have it ended as quickly and as thoroughly as Doan's Kidney Pills, procured at a drug store ended mine, then that far to prevalent annoyance would cease to have any terrors for ladies who will take a course of the treatment with this strengthening and curative remedy. When I read about Doan's Kidney Pills in our papers I was sadly in need of something for an attack of backache just like many of its predecessors. The treatment acted just as a tonic and relief followed in a surprised y short space of time."

For sale by all dealers; price 50 cents per box. Mailed by Foster-McMillan Co., Buffalo, N. Y., so agents for the United States.

Miss Nellie Holmes, treasurer of the Young Woman's Temperance Association of Buffalo, N.Y., strongly advises all suffering women to rely, as she did, upon Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—Your medicine is indeed an ideal woman's medicine, and by far the best I know to restore lost health and strength. I suffered misery for several years, being troubled with menorrhagia. My back ached, I had bearing-down pains and frequent headaches. I would often wake from restless sleep, and in such pain that I suffered for hours before I could go to sleep again. I dreaded the long nights when as the weariness of the day came on, I consulted two different physicians, hoping to get relief, but finding that their medicine did not seem to cure me, I tried your Vegetable Compound on the recommendation of a friend from the East who was visiting me.

"I am glad that I followed her advice, for every ache and pain is gone, and not only this, but my general health is much improved. I have a fine appetite and have gained in flesh. My earnest advice to suffering women is to put aside all other medicines and to take Lydia E. Pinkham's Vegetable Compound."—Miss NELLIE HOLMES, 540 No. Division St., Buffalo, N. Y.—\$5000 forfeit if original of above letter proving genuineness cannot be produced.

Tendency of the Times.

The tendency of medical science is toward preventive measures. The best thought of the world is being given to the subject. It is easier and better to prevent than to cure. It has been estimated that pneumonia, one of the most dangerous diseases that medical men have to contend with, can be prevented by the use of Chamberlain's Cough Remedy. Pneumonia always results from a cold or from an attack of influenza, croup, and it has been observed that this remedy counteracts any tendency of these diseases toward pneumonia. This has been found in many thousands of cases in which this remedy has been used during the great prevalence of colds and grip in recent years, and can be relied upon with implicit confidence. Pneumonia often results from a slight cold when a danger is apprehended until it is suddenly discovered that there is fever and difficulty in breathing and pains in the chest, then it is announced that the patient has pneumonia. Be on the safe side and take Chamberlain's Cough Remedy as soon as the cold is contracted. It always cures. For sale by Osmond Bros., Seventh and Broadway.

WOMEN'S CLUB MEETS.

JUVENILE COURT LAW IS DISCUSSED BY THE OFFICERS.

The Women's Civic Improvement Club held its regular meeting at Chabot Hall yesterday afternoon, and an enthusiastic gathering greeted the speakers of the afternoon, Miss Whitney, president of the Associated Charities, and Ezra Devoe, the probation officer appointed by Judge Edwards seven months ago.

Miss Whitney spoke in an interesting way of the juvenile court law and its working in this city. "Our principal fact which lies at the base of this juvenile court law," she said, "is the motto that it is wiser and less expensive to save children than to punish criminals. This law is primarily to save children under 16, and these children are divided into two classes, dependents and delinquents. The law governing these classes varies in the different states. In California our constitution is such that these children cannot be taken into the Juvenile Court, and as yet their right to be tried at a separate time from ordinary criminals has not been established. The question as to how far this law is to be extended to the Superior Court or to these dependents or delinquents at a separate time in the Police Court.

"The dependents are the class of erring children whose fall is a result of orphanage or lack of some influence, and the delinquents are the child who breaks a law of the State, city or county."

Miss Whitney then explained briefly and wisely how these dependents were protected, and how the law was enforced. "Judge Lindsay of Denver," continued Miss Whitney, "has been the most successful presiding judge of this juvenile court law, owing perhaps to his personal interest and enthusiasm in the work. He has 250 boys now reported to him every two weeks and knows each individual story. We hope a great deal from his visit here next Tuesday, and also hope that Oakland will make a representative showing to greet him."

Ezra Devoe then briefly outlined his work as a probation officer during the last seven months and cited a few cases of boys working who had been saved from San Quentin and were now respectable members of the community.

"From my experience," he said, "the law is a perfect success. It fills a hole in the criminal law which has always been needed. It gives the man a chance to start life under proper conditions, and the success of the law in the past is a good indication of its future."

The meeting then adjourned to meet three weeks from yesterday in the small hall at the Chabot Observatory.

CO-ED ACCORDED HONORS OF CLASS.

BERKELEY, February 16.—College traditions were thrown to the winds yesterday when Miss Clara Erickson was elected president of the Junior class at the University of California. This is the first instance in the history of the University where a woman was elected president of her class in the Junior year and where a woman was elected sergeant-at-arms.

The vote for the presidency was very close. Miss Erickson winning by one vote. The total vote cast was 238. The following are the other officers of the class: First vice-president, M. W. Walsh; second vice-president, P. T. Booth; treasurer, J. J. O'Connell.

AMUSEMENTS.

Notwithstanding the inclemency of the weather, at all the performances day and evening yesterday, the spacious Novello Theatre was favored by a large attendance. The customary weekly change of program was given, and the bill was up to the usual standard. The new farce this week are: "Hervé," the famous ventriloquist, who made an instantaneous hit. He is surely all that is claimed for him and about the best seen in his line here, the old as well as the young seemed pleased with his wonderful act. Ben Williams, a monologist, is also the ordinary, but some new "puns" and does a very clever turn. "The Quicks," the Wilsons and Heath and Eschard are all going in their respective characters. Walter Kerkick gives a new illustrated song and the new motion picture, "Lucia Tom's Cabin," goes to make up a splendid entertainment. The same bill will be given all of the week. There is a new program every Monday. The admission is always one dime. The matinees are becoming more popular than ever. The day performances are invariably well attended, mostly by ladies and children.

OSGOOD BROS. RELY UPON HYOMEI.

Cures Colds, Coughs, Catarrh and Grip. Just Breathe It.

Hyomei is nature's own method for curing catarrh, colds, coughs and diseases of the respiratory organs. It is the only natural treatment for the cure of these troubles.

Breathed through the neat pocket inhaler that comes with every outfit, the air that passes into the throat and lungs, is identical with that on the mountain where it is laden with healing and health-giving balms. It searches out and kills disease germs in the most remote and minute air cells of the head, throat and lungs, it soothes and heals all irritation of the mucous membrane.

Hyomei is prescribed by physicians generally. Many of them use it themselves to break up a cold and prevent pneumonia.

The complete Hyomei outfit consists of a neat inhaler, that is so small and convenient that it can be carried in the pocket or purse, a medicine dropper and a bottle of Hyomei. This costs but \$1, and it will cure any ordinary case of catarrh, in chronic and deep-seated conditions, longer use is necessary and extra bottles of Hyomei can be obtained for 50 cents making it a most economical treatment for this disease.

Osgood Brothers place so much confidence in the power of Hyomei to cure catarrh and other diseases of the throat and lungs that they sell it under their personal guarantee to refund the money to any purchaser in case it fails to give satisfaction. They take all the risk themselves and Hyomei costs you absolutely nothing unless it does you good.

CLASS MEETING ENDS IN FIRST FIGHT.

Belligerent High School Seniors Will Be Reported to the Board of Education Tonight.

BERKELEY, February 16.—A lively fight followed the meeting of the Senior class at the Berkeley High school yesterday afternoon, and as a result it is probable that the melee may be inquired into tonight at the meeting of the Board of Education and the recommendation made that the participants in the affair be dismissed from school. The youths who indulged in the fracas were Fred Fiske, the president of the class, and Hugh Dykes.

The trouble between the belligerents arose at a meeting called for the purpose of appointing the committees to arrange for the graduating affairs of the class. Dykes maintained that there was

STEREOPTICON LECTURE.
DE ROME TEA TOMORROW—LADIES' AID MEETING.

NOTES.

GOLDEN GATE, February 16.—The Rev. Everett M. Hill, pastor of the Golden Gate Methodist Episcopal Church, has introduced into his Wednesday evening meetings a most instructive method of entertainment both for young and old.

Prior to the regular Wednesday evening service a stereopticon lecture is given. The views at present used are those representing the various stages of Bunyan's famous "Pilgrim's Progress" and as these change the Rev. Hill gives a short lecture explaining the book itself as well as drawing a moral lesson, as applicable to the life of today as it was when it was written.

These lectures have proven a great success in every way. Later on various Biblical historical lectures will be given embodying the great moral acts in the lives of the various prophets and kings.

Those enjoyable and profitable lectures are given every Wednesday evening at the M. E. Church from 7:30 to 8 o'clock. At the conclusion the regular service of worship begins.

RECEPTION WEDNESDAY.
Mrs. L. De Rome at her residence, 1076 Fifth street, will entertain in behalf of the M. E. Church this Wednesday afternoon. A tea, to which all are invited from 2 to 5 p. m., is announced. It is hoped that all interested will attend. Refreshments will be served.

It is safe to say that, with the affair in the hands of Mrs. De Rome, it will not only meet with the hearty endorsement of all, but its hostess will receive her full need of unreserved thanks.

DECIDE ON BOND ISSUE.

BERKELEY, February 16.—Exactly \$317,000 is needed for municipal improvements according to the Citizens' Bond Committee which held a meeting last night at the Town Hall for the purpose of preparing a report to be tendered to the Town Board of Trustees by whom they were appointed. Ratification was given the reports of the sub-bond committees not passed upon at the last session of the committee and full discussion given to the various projects.

The proposal to install the nucleus for a new water system in the city was passed up to the Town Trustees, it being left for them to determine whether the estimated cost of \$160,000 should be added to the bond proposition or raised on the district plan.

RICHARDS IS CHAIRMAN.
J. W. Richards acted as chairman of the meeting and Alan G. Clarke, secretary.

Dr. W. W. Allen, the chairman of the committee on schools reviewed his report as offered at the last meeting of the committee and declared that the entire \$125,000 suggested in the report was needed for the improvement of the school department. He pointed out the need of additional land for not only new schools but adjacent to the sites of many of the schools.

ROOM FOR SCHOOLS.
Dr. Allen stated that in one school

At the meeting of the Citizens' Bond Committee last night it was decided to submit the following bond propositions to the voters of the city:
For streets \$ 7,000
For parks 10,000
For manual training 20,000
For First Department 35,000
For water 45,000
For Town Hall 75,000
For schools 125,000
Total \$317,000

the yard space is so limited at the present time that the principal is compelled to make urgent trails against too hearty exercise on the part of the boys and that infringing suits have to be punished.

SCHOOL REPORT ADOPTED.
Upon a motion by Hansford B. Griffith the school committee report was finally adopted.

AUTOMOBILE ENGINE.
It was the opinion of Victor Robertson, who spoke in favor of the adoption of the report recommending the expenditure of \$35,000 for the improvement of the fire department, that an automobile engine should be purchased. This suggestion was referred to the committee for its consideration and the report recommending the ex-

penditure of \$35,000 adopted.

NEW TOWN HALL.
The report of the Town Hall Committee recommending the erection of a structure at a cost of \$60,000 and the purchase of a site for \$15,000 was adopted. Hansford B. Griffith and Victor Robertson spoke in favor of a new municipal building.

Wide discussion was given to the plan to install a new sewer system in the city. It was the opinion of Guy Hyde Clark, to whom the matter had been referred in conjunction with Town Engineer C. L. Higgins that three main sewers, five feet in diameter, should be placed in Rose street, Addison street or Alston Way and Parker street. He then advised the placing of lateral sewers in a number of cross streets. All this he estimated could not be done for less than an outlay of \$160,000. The matter was finally referred to the Town Board of Trustees after it had been shown that new sewers are urgently needed to carry away the storm water of the city.

EXECUTIVE COMMITTEE.
Upon a suggestion made by Victor Robertson Chairman Richards was empowered to appoint a committee whose duty it will be to bring the question of the bonds before the people of the city through the holding of several meetings.

LAST TENDER REPORT.
The last act of the meeting was to order a report of the findings of the committee reported to the Town Board of Trustees.

absence of five years, Miss Amy Hamlin, a graduate of the University of California with the class of 1899, will return within a few weeks to take the part of leading lady in James A. Herne's masterpiece, "Sag Harbor."

While in college she was prominent in many theatrical events, notably the Junior curtain raiser, and Harold Symmes' laughable farce, "The Duke of Oldenburg." She was also one of the founders of the first dramatic club, The Mask and Gown.

So great was her histrionic ability that the late Professor Syle advised her to adopt the stage as a profession. Acting on his suggestion she went to New York after her graduation and received her elementary training in the American theatre. Afterwards she toured two years in "The Village Postmaster" and played summer engagements in the Kilgore Stock Company at Atlanta, Georgia.

It is gratifying to her many friends that her first visit to her home in her official capacity should be made in the leading lady's role of such a notable play as "Sag Harbor" and under the personal supervision of Mrs. Herne.

When it comes to acquiring a knowledge of school-books the small boy prefers absent treatment.

PROFESSOR GIVES REPORT ON STRANGE MINERAL.

Dr. Arthur S. Eakle Tells of a Stone That Emits Light When Scratched.

BERKELEY, February 16.—One from Mariposa county, which exhibits a train of light or phosphorescence when scratched with a knife blade or even with the finger nail, has been received at the University of California by Arthur S. Eakle, professor of mineralogy. A thorough examination of the substance has been made by Professor Eakle, who gives the following report of his findings:

"The ore consists essentially of three minerals, namely, the sulph-antimonite of copper, tetrahedrite, the sulphide of zinc, sphalerite and the sulphate of barium, barite. The minerals are very apt to be associated with other substances, like green, chalcopyrite, stibnite, chalcocite and bornite, consequently the composition of the ore in different samples may vary widely, but the phosphorescence is due wholly to the presence of the sphalerite.

"The reason of the difference in the scintillations of the three minerals composing the ore, it was possible to extract all of the tetrahedrite by treatment with acids, and still leave a large part of the sphalerite undecomposed and mixed with the barite; this mixture when dried and tested was still quite strongly phosphorescent. The sphalerite was then removed by longer treatment with acids, leaving only the insoluble residue of the barite; this residue when dried and tested was not phosphorescent, and the proof was therefore clear that this physical property belonged to the sphalerite.

"Within the past few days a specimen from the same locality has been given to me which shows exactly the same characteristic phosphorescence. The specimen consists of fine granular galena, sphalerite and barite, as seen by microscopic examination. The sphalerite is disseminated through the specimen and also occurs in veins a quarter of an inch wide. A much stronger phosphorescence is obtained from these veins of pure mineral than from the mixture, as one would naturally expect.

"Phosphorescence is defined as the property which a substance has of emitting a feeble luminosity, and is possessed of many substances. The spontaneous phosphorescence of or-

UNIVERSITY SPACE IS NOW ASSIGNED.

BERKELEY, February 16.—Plans for the space assigned to the University of California for its exhibit at the St. Louis Exposition have been received. The assignment is of a square pavilion at the northeast corner of the Palace of Education.

This building stands at the center of the four main avenues of the exposition grounds. The pavilion has the great advantage of being the coolest situation during the warm summer months, and it is also adjacent to the exhibit of the State of California. The pavilion is splendidly lighted and is capable of a most effective and artistic treatment in the display of the University.

SCHOOL REPAIRS.
The repairs on the Day School, Sixty-ninth street, have been completed. Six new windows have been put in, and yesterday the painting of the new work was finished. The extra light admitted is a great benefit to the scholars and the alterations tend to improve the appearance of the building.

COMING TO VISIT.
The nephew of Mrs. Asman, Robert Menary, is expected soon from San Francisco, where he is attending school. He will be here for some time, during which time he will be enabled to renew old acquaintances.

CYPRESS TREES CUT DOWN.
The cypress trees nearly in front of the residence of C. G. Maybarn and adjacent to Smith's cypress were to have been cut down. They have been an eyesore to some, and it is said that a person had been secured to remove them. Accordingly the parties most desirous their removal started to use the axe. Then it was discovered that the "person" had been withdrawn. There they lie, heels up and heads down, while their remaining brethren peer downward with curious depths. The outcome of the cypress tree controversy is uncertain. It is rumored that a prominent official of the town was asked to assist in the work of "wood-chopping."

HEAVY RAINS.
Because of the heavy rains the streets are still muddy and no outside work has been done.

NATIONAL UNION GIVES BANQUET.

BERKELEY, February 16.—An unusually interesting fraternal event was held last night when the members of Berkeley Council, No. 88, National Union, entertained their friends at a social evening and banquet. The affair was held at Odd Fellows' Hall, where a large number of guests assembled despite the inclemency of the weather.

The principal portion of the program was furnished by the De Haven Club and Milton Schwartz, monologist. A delicious menu was partaken of at the request, which was not concluded until midnight.

WATER STILL STANDING ON ACCOUNT OF POOR DRAINAGE.

ELMHURST, February 16.—Miss M. Flynn, who conducts the Elmhurst Bakery, is worrying over the amount of water surrounding her place of business. During the last rain it was impossible for customers to reach the bakery without wading. Now that the storm is over the building is still surrounded by a lake, as the ground is low. Bridges are being used to get to and from the place.

ANOTHER NURSERY.
Nursery men are becoming numerous in this vicinity. Several small tracts of land have recently been sold to florists.

The latest purchaser in this line is Paul Guller of the Colma nurseries. He has just bought three acres of land on Yorkman avenue.

He will put up greenhouses very soon on the place, and has already made a contract with L. W. Murdoch for the erection of a windmill and tank on the property.

The band had met in the fire house, where they keep their instruments, before going to the hall, when a dispute arose over which half of the band should play during the first half of the entertainment. After a long and heated argument, Fought and McCoy were selected referee and the fight began.

Marquis of Queensberry rules governed the contest. Allen won the first round, while McCoy tipped 200 pounds flat.

Some of the members present who backed Allen were given a stiff with the decision of Referee Hunt.

FRUITVALE PEOPLE HAVE MISSED PAPER THIEF.

FRUITVALE, February 16.—Deputy Constable Frank Dearborn caught John Thorn, a paper thief, early Sunday morning, while Thorn was taking the Sunday morning Examiner from the home of Mrs. J. Crocker of Fourteenth street.

The thief has been operating for the past three months but his was too easy for the authorities to catch.

Thorn drove a milk wagon and when he would go into a customer's house to deliver milk he would come out with a paper. With the paper concealed under his arm he would return to his milk wagon and drive off. When out of sight of the house he had relieved of a paper he would deposit the paper in the bottom of the wagon. After finding his milk route he would have boys offer the papers for sale.

It was not caught before because he did not operate in the same field every Sunday. He would work the system in different parts of his route on different Sundays.

WHEELER FORGOT THE FUNDS.

STUDENTS FIND THEY HAVE NO MONEY TO CARRY ON LABOR DAY.

BERKELEY, February 16.—When President Benjamin Ide Wheeler of the State University departed for the East a few days ago he neglected to provide money for the Students' Labor Day, as he had promised to do. As a result the students at the head of the carnival find themselves in an embarrassing situation.

When the idea of a laboring day was suggested to President Wheeler, he said the funds necessary for incidentals would be paid by the University out of some fund. On this understanding the committee went to work and completed all the preliminary preparations. A few days ago Mrs. Thelen had occasion to secure some of the promised money. He was assured by the authorities that the situation Wheeler had made no provision for any Labor Day fund when he went East. More over, they said that there was no fund available out of which money could be drawn for any outside work. A telegram was sent to President Wheeler last yesterday afternoon asking for the money.

Outside of this little embarrassment everything has gone well. Superintendent Bolton has promised to secure gravel and rock for the students and as many implements as possible. The committee of women students in charge of the refreshments is also making much headway.

The check for \$5.10 that was stolen from J. Van Doran a few days ago, was cashed last week by J. Bode, a saloon keeper, corner of Fourth and Channel streets in San Francisco.

The man that cashed the check was a tall, dark man of foreign birth, supposed to be a Swede.

Constable Sam Carroll thinks that two men did the robbing and came over from San Francisco in a boat.

SCHOOL BOARD MEETS.

RESIDENTS NEAR CLAWSON SCHOOL ASK FOR A LARGER APPROPRIATION.

The matter of issuing bonds for school purposes now being out of the hands of the Board of Education there was but little out of regular routine work transacted at the meeting of the Board of Education last night.

J. Hansen and M. J. Herby, living near the Clawson School, appeared before the board for the purpose of urging a larger appropriation for the improvement of that school than provided for by the Bond Committee of the board. It was pointed out by them that but \$5000 had been set apart for this improvement. Their claim was that there are but six grades in the Clawson School at the present time, whereas there should be eight, and it was not believed that \$5000 was a sufficient sum for the proper enlargement of the building.

In answering the gentlemen for the board, Director Redington stated that the Bond Committee had thoroughly investigated the situation and their recommendation had been published a number of times, but nothing had been done in the matter until it was now out of their hands. The \$5000, he said, was for the purpose of building an addition on to the school that would accommodate two extra grades. It was also expected that the improvement of the Clawson School would draw from the Durant School to such an extent as to relieve it of many of its pupils. The teachers' salaries for the month of February were ordered paid.

The bid of Dalziel & Miller of \$229 for the placing of shower baths in the

High School gymnasium was accepted. Bills to the amount of \$500 were allowed for supplies and necessary repairs on buildings.

In regard to the complaint that the Bay School was in an unsanitary condition, the report of Health Officer von Adeling was read which states that with a few little changes the rooms contained can be made unsanitary. The work was ordered in conformity with the recommendations made.

A WISE HOUSEWIFE PROTECTS HERSELF AGAINST INFERIOR SHORTENINGS

Cottolene

Nature's Gift from the Sunny South

Shortens your food—Lengthens your life

The wise housewife specifies Cottolene every time in place of lard. Anybody with a particle of respect for his stomach would prefer a pure vegetable product to one made from hog fats. Cottolene is always pure, lard isn't. Cottolene will make more palatable food than lard, and food that any stomach can digest with ease. Lard is a friend of indigestion. Cottolene is put up in odor-proof sealed tin pails; lard comes in bulk and will absorb any old odor which is near it.

You can prove every word we say by buying and trying a pail of Cottolene. All good grocers sell it; all the great cooking authorities of America recommend it.

USE 1/3 LESS. Cottolene being richer than either lard or cooking butter, one-third less is required.

City Attorney McElroy reported at the meeting of the City Council last night that the status of the various suits in which the city was interested is as follows:

Brod, in which city is left \$15,500 worth of property, pending in probate; Owens v. Varney, Green & Co. vs. City of Oakland, dissolve injunction preventing maintaining of bill boards, pending in Superior Court; First National Bank vs. Z. T. Tiffin, to prevent sale of property, pending in Superior Court; Oakland Bank of Savings vs. Z. T. Tiffin, to prevent taxation of bonds, pending in Superior Court; Union National Bank vs. Pelton Taylor as Tax Collector, to prevent taxation of bonds, pending in Superior Court; Contra Costa Water Company vs. City of Oakland, bill of exceptions being engrossed for submission to Supreme Court.

COUNCIL AMENDS GARBAGE ORDINANCE.

The City Council last night amended the garbage crematory ordinance so as the various dates set forth in the ordinance now being published, will conform with the date in which the ordinance was finally passed.

Councilman Fitzgerald and Meese voted against the amendment.

Councilman Aiken, Bacus, Cuvelier, Elliot, McAdam, Meese, Pendleton, Wallace and Dornin voted for the measure.

Dr. Miles' Nervine has made so many marvelous cures, of people so sick the doctors thought they were incurable, that it is today the standard medicine in many thousands of American homes.

The first bottle is guaranteed to help you, or druggist returns your money.

The extreme heat, close confinement and intense mental strain incident to the banking business, has caused me to suffer with nervousness and insomnia. I have used Dr. Miles' Nervine with very satisfactory results in this treatment of these afflictions. I am now on my fifth bottle, and eat and sleep well, in fact have almost forgotten that I possess nerves. E. L. DALBERT, Assistant Cashier, State Bank, Texarkana, Ark.

finance could be made legally binding and the latter withdrew his objection.

COUNCIL THANKS BOARD OF TRADE.

By resolution passed by the City Council last night it took occasion to thank the Board of Trade for the invitation extended to the different members to accompany the recent excursion to Los Angeles.

The resolution was introduced by Councilman Elliot and is as follows: "Whereas the Board of Trade of Oakland invited all the Councilmen to go to Los Angeles on the recent excursion, and whereas said invitation was accepted by all the Councilmen who could go, and

Whereas we believe that the generous invitation was extended in a true spirit of civic hospitality;

Now therefore be it resolved that we appreciate the favor done us personally by the generous action of the Board of Trade; and

Be it further resolved that as city officials we commend the action of our Board of Trade as showing a proper public spirit."

SMOKE STACKS MUST BE HIGH.

A resolution was introduced at the meeting of the City Council last night for the regulation of the heights of smoke stacks. The ordinance proposes that no factory, foundry, machine shop or other establishment shall erect a chimney or smoke stack less than 10 feet above the highest building within a radius of one hundred feet.

It is also provided that no such chimney may be erected that permits the emission of soot or cinders.

Suicide Prevented.

The startling announcement that a preventive of suicide had been discovered will interest many. A run down system of the body invariably precedes suicide and something has been found that will prevent that condition which makes suicide likely.

At a meeting of the City Council last night, Councilman Meese said that he had conferred with the City Attorney on the matter of obtaining city assessment rolls from the County Assessor, and that the city had no option in the matter but had to order the rolls before the first of the month.

Councilman Howard and other members of the Council were opposed to paying the County Assessor approximately \$2,650 annually for this work.

On the recommendation of Mr. Meese the resolution ordering the assessment books was taken out of committee and passed.

CITY COUNCIL WILL MEET NEXT TUESDAY.

On next Tuesday evening the City Council will meet. As Monday is Washington's birthday no meeting could be held. There will be a meeting of the Committee of the Whole on the same date, at which the Bay Cities water project will be considered.

NEW YORK CENTRAL LINES' SPECIAL TRAIN CARRYING WEBER & FIELD'S COMPANY.

Again the New York Central lines have sent to the Pacific Coast one of their magnificent trains similar to the one occupied by the bankers. This time it brings out the Weber & Field Company on its transcontinental tour with 100 people. The train is especially adapted for this large and expensive organization having specially fitted baggage cars, buffet car for the convenience of the members of the party and a dining car service unequaled by any hotel in the country where meals are served by a competent crew of New York Central dining car employees. The remaining portion of the train is furnished with staterooms, drawing-room cars with observation end.

On the trip across the continent the time was very pleasantly spent by the members of this large organization in the way of entertainments, such as vaudeville, grand ball, and for the first time on any train a full dress rehearsal was given of "Whoop De Doo" by Weber & Field's all-star company. The expense of bringing this company across the continent has been enormous and the managers, although they have given but eight performances, are very much pleased with the results, and it warrants a return to the coast

next season, in fact, it may be stated that the receipts of the Weber & Field's entertainments in San Francisco will exceed those of

any attraction ever before given in this city. The advance sale indicates that the business across the bay will exceed the sum of \$60,000.

The management of the Macdonough Theater, after long negotiations with Messrs. Weber & Field, have concluded an arrangement whereby, as it probably well known to the public, the Weber-fieldans will be seen at their house on the night of Tuesday, February 23d. The magnificent New York Central special will be conveniently located in Oakland for the occupancy of the members of the company during their stay here.

Carlton C. Crane, Pacific Coast agent of the New York Central lines, San Francisco, has received a number of applications from the public for inspection of this train, and it may be possible for him to arrange with Weber & Field for the placing of the same on exhibition.

The living rooms on this train for such members as Joseph M. Weber, Lew M. Field, Lillian Russell, Louis Marin, Mable Fenton, Charles J. Ross, Peter F.

DINING CAR ON WEBER & FIELD'S SPECIAL TRAIN.

Dailey and John T. Kelly are as luxuriously furnished as money can purchase, as these cars were all especially selected by Mr. Milton Roach, general Eastern passenger agent of the New York Central and Hudson River Railroad, New York. Through the courtesies of George H. Daniels, general passenger agent of the Lake Shore and Michigan Southern Railway, and O. W. Ruggles, general passenger agent of the Michigan Central Railroad, every attention was shown the party en route, not only on the New York Central lines but on the lines west of Chicago.

this case," said Harris. "He evidently has no desire to face the facts."

Judge Smith put an end to the discussion by sustaining the demurrer.

WILL NOT ADMIT SUICIDE THEORY.

John Anderson, the young man alleged to have had a violent quarrel with pretty seventeen-year-old Madeline Fella, before she committed suicide a week ago by drinking poison, is alleged to have attempted to commit suicide this morning by springing from Adams' Wharf into the Estuary. He was rescued by the watchman on the fruit boat Jessie Madison, and two other boatmen.

He was turned over to the police who will keep him in custody until his alleged marks for self destruction have run their course.

The boy himself does not stand for the suicide theory however. He says that he was going on board the boat when he stubbed his toe and fell into the water. He admits having had a quarrel with his sweetheart just before she committed suicide. He scents the theory that remorse caused him to take so rash a step as committing suicide.

GENTLEMEN'S CAR ON WEBER & FIELD'S SPECIAL TRAIN.

UNION LABORERS MEET.

CARPENTERS OBJECT TO ARMY MEN DOING CARPENTER WORK.

J. E. Bailey of the District Council of Carpenters of San Francisco addressed the Central Labor Council last night on enlisted men in the United States army doing carpenter work and the true conditions existing at Fort Bragg.

The carpenters object to enlisted men in the United States army doing carpenter work for the government. Unemployed soldiers receive \$13.50 a month and the carpenters demand a wage of \$4 a day. A bill has been framed by the District Council of Carpenters which will be introduced in the upper House at the next meeting of Congress.

Mr. Bailey is urging the different labor organizations to influence their respective representatives at Washington.

FORT BRAGG.

Reports had been current that money donated to the Fort Bragg strikers by the various unions was being squandered. J. E. Bailey was appointed a committee of one by the District Council of Carpenters of San Francisco to investigate the condition of affairs at Fort Bragg. After visiting the woods and mills he was convinced that all derogatory reports about the strikers were untrue. The money is accounted for fully and favorable conditions exist.

REPORT RECEIVED.

The report of the committee on establishing harmony between the water front unions was received by the

COUNCIL PROGRESSING.

Word was received from the Provision Trades Council that the organization is rapidly getting into shape. The by-laws and constitution of the council is before the different departments for referendum vote.

TRANSPORTATION.

A report was received from the Transportation Council that work was progressing with that organization. The last meeting held by the council was fully attended. The by-laws and constitution of the council have been given out to the departments making up the council for referendum vote.

NOTIFICATION.

The following is a notification to the lumber dealers of Alameda county: "The lumber dealers of Alameda county were notified that no more rustic would be allowed to be shipped into the county, but that all orders already placed would be allowed to come in."

In consequence, the rustic which has been ordered up until that time has been coming in, and it is stated that the shipments are not yet complete.

"As there is considerable opportunity for competition in this matter as it has been concluded, the Building Trades Council has notified you that all shipments of rustic must be completed no later than April 1, 1904."

"No rustic coming into the county after that date will be used by any member of the union affiliated with the Building Trades Council."

"It is stated that you will appreciate the necessity of placing a time limit on these shipments and that the cordial relations which have always existed between the lumber dealers and the Building Trades Council will continue as in the past. I remain, very truly yours,"

BARBERS MEET.

A called meeting of the local Barbers Union No. 121 was held last night in Chicago, Ill.

W. J. Leonard addressed the union in behalf of the Western Federation of Miners. This union made the handsome donation of \$100 to the miners at the close of the address.

A fine of 10 cents is imposed by the union for absence from a called meeting. The fines that will be collected from members absent last night will also be

SEA FOAM LOST.

The resolution to reduce a sea foam to 10 cents when taken with other work was lost. The price will remain 15 cents. The resolution to set aside temporarily the law not allowing an "unfair" shop to join the union without heavy fine passed. This will allow a certain shop, that has been unfair, to sign the agreement.

TO ENTERTAIN.

A committee composed of J. W. Bash, Ben Lizenstein and W. C. Wilson, was appointed to make arrangements for a benefit entertainment to be given in a local playhouse.

PAINTERS.

W. E. Scully, former business agent for the Building Trades Council, has been appointed Pacific Coast organizer by the executive committee of the Brotherhood of Painters.

Mr. Scully's duties will be confined for the present to San Francisco and No. 19. Forty members of Union No. 19 were recently suspended for acting in opposition to the regularly elected officers. Union No. 599 was suspended by the national organization and because the local council upheld the suspended, under a new district council of painters was organized. It will be Scully's present duty to harmonize these factions.

VESSEL GOES DOWN.

NANTUCKET Mass., Feb. 16.—The Nova Scotia schooner Scotia Queen struck on "Lucky" Shoals in Nantucket Sound, last night, and as nothing can be seen of the vessel today, it is thought she is lost with all hands, numbering five men, but there is a chance that the vessel was blown clear off the shoals. The Scotia Queen was bound from River Harbor, N. S., for New York with a cargo of lumber.

ELECTRIC RAILWAY ASSESSMENTS.

SUPREME COURT DECIDES THAT COUNTY ASSESSORS SHALL MAKE THEM.

The Supreme Court has reversed itself in the case brought by the San Francisco and San Mateo Electric Railway Company against ex-Tax Collector Scott, and now the corporation's property will be assessed by the authorities of the counties through which the line runs instead of by the State Board of Equalization. The Justices who changed their minds are Shaw, Angellotti, Lorigan and Van Dyke. San Francisco will gain about \$6000 annually as a result of the court's decision.

This particular difficulty between the city authorities and the San Mateo line people arose in 1899, prior to the purchase of the property by the United Railroads. The corporation sought to restrain the Assessor, the Tax Collector and the Auditor from taking the official stand that the San Mateo line property within the limits of San Francisco should be taxed by this municipality. It was maintained by the attorneys for the company that the State Board of Equalization should make the assessment and that the two counties concerned should harmonize these factions.

The judgment of the Superior Court was in favor of the city. The Supreme Court on appeal decided in favor of the corporation. A rehearing was granted. The decision just rendered sustains the judgment of the Superior Court. The United Railroads is expected to file a petition for another rehearing.

This case is of especial interest to this community because Alameda county will soon be placed in the same situation that San Francisco now occupies, by the extension of the lines of the Transit Company into Contra Costa County. Had the original ruling of the Supreme Court been allowed to stand, all the lines of the Transit Company would be assessable by the State Board of Equalization instead of the County Assessor, from which an also affects Los Angeles, from which an

PARDEE MAKES A STATEMENT.

SACRAMENTO, February 16.—Branches of his confined Governor Pardee to his rooms for the past month and he will not venture outside in the open air until the weather settles. He declares that he is suffering from a cold, which he attributes to the fact that he was exposed to the elements while on his way to the State Capitol to make a statement. He would not mind being one of the Republicans selected to go to Chicago, but as to making a fight for the honor, that is another matter. He is so arranged that we are so arranged between us as to whether he or I should be one of the delegates at large. As far as I am concerned, I have never had any understanding with Congressmen. I have not given the selection of delegates any thought, as my illness and the duties of my office have kept my mind occupied.

BURTON'S TRIAL.

ST. LOUIS, Feb. 16.—Judge Adams, in the United States District Court today over-ruled the demurrer of United States Senator Joseph R. Burton of Kansas to the indictment charging him with accepting money for using his influence in preventing the issuance of a fraud order against the Rio Grande and Securities Company. The trial of the Senator was set for March 22d. A panel of six jurors has been ordered for that date.

The indictment grew out of the troubles of the Rio Grande and Securities Company, when that concern ran foul of the United States Postoffice Department and further use of the mails was denied it. It is charged that for \$500 per month Senator Burton was to use his influence to have the embargo removed.

BANKS GO INTO COURT.

Owing to the similarity of the name chosen for the proposed new bank of Berkeley to that of the Security Savings Bank and Trust Company of Oakland, the latter concern entered a contest in Judge Ogden's department of the Superior Court this morning. According to a petition before Judge Ogden the Emeryville Savings Bank wishes to change its name and location from that of the Emeryville bank to that of the Security Bank of Berkeley, with its place of business in the latter city.

The Security Bank and Trust Company doing business at 1120 Broadway objects to the bank adopting a name so nearly like its own. Attorney J. W. Stevenson, representing the bank, stated to the court this morning in support of his contention that the Oakland concern was often called the Security Bank, which would in all probability be what the Berkeley bank would be called. The similarity of the names would lead to confusion, which would only be augmented in case the two cities were ever consolidated.

Attorney W. H. Waste, representing the Emeryville people, held that technically there was no similarity and if consolidation should take place the bank would still be the Security Bank of Berkeley.

The matter was continued in order to give place to another case, and will come up for decision and argument next Friday.

ANGRY LAWYERS.

For the second time this morning Attorney George Witter had the charge of cruelty to animals interpreted in the Police Court. He interpreted a demurrer to the complaint, alleging that it contained two charges. Judge Smith held that the demurrer was well taken and sustained the point. During the argument of the demurrer Deputy District Attorney Harris who was conducting the case and Witter exchanged lively personal remarks.

It happens that a civil suit grew out of the alleged fact that Witter drove a horse to death. Harris is the attorney for the defendant who is being sued by Witter for \$100. The fact that Mr. Harris was temporarily representing Prosecuting Attorney Abe Lench, was interpreted by Witter as a desire on Mr. Harris' part not to only conduct the civil end of the case but also to conduct the criminal end as well.

"The District Attorney's office is playing both ends of this case," said Witter and I object to it."

"I object to the use of that kind of language," replied Harris, I am here as an officer of this court and will do my duty."

"Your duty covers too wide a range," said Witter.

"It is well for the defendant to rely upon technicalities for a defense in
